BUSINESS ANALYST CURRICULUM

Our programme is a clear, skills-first pathway into business analysis, taking you from a standing start to job-ready, with the tools to turn data into decisions and insight into action.

Your Training Breakdown

The Business Analyst Diploma is the most sought-after qualification in the field, ensuring you gain the skills employers look for when hiring business analysts. This comprehensive curriculum covers the full spectrum of business analysis practices, from foundational concepts to advanced techniques. With accreditation from BCS, The Chartered Institute for IT, this diploma sets you up to meet professional standards and make a strong impression on hiring managers.

Business Analysis Foundation

Gain the essential skills to identify and evaluate options for improving business processes. This certification equips you with the knowledge to support successful business change programmes, helping you to drive improvement and innovation within your organisation.

Business Analysis Practice Practitioner

Learn how to apply core business analysis techniques within a strategic context. This qualification covers key areas such as stakeholder perspectives, business activity modelling, and solution identification. You will also learn how to develop a compelling business case.

Requirements Engineering Practitioner

Master the art of engaging with business stakeholders to gather essential information for developing effective IT solutions. This certification focuses on analysing, validating, documenting, and managing requirements to ensure alignment with business needs.

—○ **Modelling Business Processes Practitioner**

Understand how to investigate, model, analyse, and improve business processes within your organisation. This qualification teaches you to break down and model operational activities, enabling you to optimise business performance using various process modelling techniques.

—○ **Oral Examination Preparation Course**

Prepare for the BCS International Diploma Oral Examination with a targeted preparation course designed to help you confidently showcase your knowledge and practical skills. This final step ensures you're ready to earn your diploma and validate your expertise.

YOUR SUPPORT TEAM

Success doesn't happen in isolation.

Throughout the programme, you'll have access to expert tutors, interactive learning tools, and a support network designed to keep you on track.

Your **Support** Team

The Learning Phase:

One-to-One Tutor Support

Your tutor is just a message away. Whether you need to arrange a one-to-one call, get additional study materials, or ask questions about your course, they're there to help. And with real industry experience in Data Analytics, they can provide insights beyond the curriculum.

Personalised Feedback

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

Resource Library & Peer Network

You'll also join an online community of fellow students, giving you a space to connect, ask questions, and engage with people on the same journey.

Guidance From Certified Experts

Your success is backed by the expertise of experienced Data Analysts who have worked across industries. They don't just teach the material – they guide you through real-world applications, ensuring you're job-ready.
