Our programme equips you with industry-recognised certifications, practical experience, and expert guidance. And with our job guarantee, you can train knowing your future is secure.

APM Project Fundamentals Qualification (PFQ)

Your introduction to project management. This course lays the groundwork, covering key principles, processes, and terminology. You'll gain a structured understanding of the entire project lifecycle, from initiation to closure, equipping you with a strong foundational grasp of the field.

Accredited by the Association for Project Management (APM), the world's only chartered institute for project management. APM certifications follow UK best practices – providing the framework you'll adhere to and apply throughout your career.

The APM PFQ will teach you how to think, communicate, and operate like a project manager.

PRINCE2® Foundation

Start with one of the world's most widely used project management methodologies. The PRINCE2® Foundation course gives you a clear understanding of its principles, practices, and processes.

Where the APM PFQ provides the framework, PRINCE2 is the methodology – the step-by-step approach to managing projects effectively. Together, they give you both the structure and the process to succeed in your project management career
