# HEALTH AND SAFETY CURRICULUM

Our programme is a practical pathway into health and safety, equipping you with the recognised certifications and real-world skills needed to protect employees, ensure compliance, and create safer workplaces.

# Your Training Breakdown

This programme focuses on advanced workplace health and safety management through the NEBOSH National Diploma for Occupational Health and Safety Management Professionals. Delivered by SHEilds (Centre 548), this qualification is respected by employers worldwide and provides the credibility and technical depth required for senior safety positions.

## NEBOSH National Diploma

### Summary

The NEBOSH Diploma is the gold standard for health and safety professionals. It teaches you how to design, implement, and evaluate safety management systems, apply UK health and safety legislation, and lead compliance initiatives across an organisation.

Accredited by the National Examination Board in Occupational Safety and Health (NEBOSH), this qualification is globally recognised and reflects best practice in occupational health and safety.

### Qualification Structure

The Diploma is divided into three units, each focused on a key area of professional safety management.

#### Unit DN1: Workplace Health and Safety Principles

This unit develops your ability to manage and evaluate workplace health and safety systems at a strategic level. You will learn how leadership, legislation, and communication shape effective safety culture.

#### Modules

- Health and safety legislation and compliance frameworks
- Leadership, communication, and organisational culture
- Risk management and governance
- Performance monitoring and continuous improvement
- Professional ethics and stakeholder engagement

#### Assessment

DN1 is assessed through one written exam composed of two papers, submitted during the same assessment sitting:

#### Unit DN2: Controlling Workplace Health Issues

This unit focuses on identifying and controlling health-related risks that affect employee wellbeing and organisational productivity.

## Modules

- Occupational health and hygiene
- Physical and psychological health management
- Environmental and welfare considerations
- Control strategies and monitoring systems
- Evaluation and reporting of health outcomes

## Assessment

You will complete a scenario-based written assignment, applying health risk management principles to practical workplace situations.

## Outcome

By completing DN2, you will be able to assess occupational health risks, develop prevention strategies, and maintain safe working conditions that meet professional standards.

## Unit DN3: Controlling Workplace Safety Issues

This unit covers how to identify, evaluate, and manage safety risks in complex workplace environments.

## Modules

- Workplace hazard identification and control measures
- Fire, electrical, chemical, and mechanical safety
- Human factors and behavioural safety
- Emergency response and accident investigation
- Maintaining compliance with safety legislation

## Assessment

You will complete a scenario-based written assignment designed to test your ability to apply safety management systems in realistic workplace situations.

## Outcome

By completing DN3, you will have the practical competence to manage safety across an organisation and implement systems that meet UK regulatory standards.

## **Risk Assessments & Safety Projects**

To strengthen your portfolio, you will participate in a project created by ITonlinelearning. This applied project will allow you to showcase your ability to translate theory into practice. This project becomes part of your professional portfolio, giving you practical evidence to present to employers during job applications and interviews.

# YOUR SUPPORT TEAM

Success doesn't happen in isolation.

Throughout the programme, you'll have access to expert tutors, interactive learning tools, and a support network designed to keep you on track.

# Your **Support** Team

## The Learning Phase:

### One-to-One Tutor Support

Your tutor is just a message away. Whether you need to arrange a one-to-one call, get additional study materials, or ask questions about your course, they're there to help. And with real industry experience in health and safety, they can provide insights beyond the curriculum.

### Course-Specific Webinars & Tutorials

We know what challenges students face because we've trained thousands of them. That's why we provide a library of tutorial videos and live webinars that dive into the finer details of health and safety – giving you extra clarity when you need it.

### Personalised Feedback

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

### Resource Library & Peer Network

Beyond structured training, you'll have access to an extensive resource library with additional study materials to support your learning. You'll also join an exclusive Online Community of fellow students, giving you a space to connect, ask questions, and engage with people on the same journey.

With structured learning, hands-on experience, and expert support at every step, we're confident in getting you hired. And if not? You get your money back.

SHEilds are a global leader in health and safety training. They are accredited by the following awarding bodies, NEBOSH, City & guilds, ProQual and ILM.

As a candidate of our job programme, you will have access to professional SHEild tutors on hand to help with your studies.
