# Digital Transformation Job Programme

## Transform. Deliver. Lead.

### Qualification:

Gain industry-leading, internationally recognised, UK-accredited qualifications.

### Completion Time

10-12 weeks

*\*If you are studying 2 hours a day\**

### Total access period

12 Months

A career in digital transformation involves driving organisational change, improving business operations, and helping organisations adapt within fast-moving digital environments. If you're ready to work where technology, Agile delivery, and business transformation come together, we're here to help you make it happen.

The ITOL Recruit Digital Transformation Job Programme is designed to get you trained, certified, and hired. You'll develop practical transformation, Agile, and business analysis skills, work with modern reporting and data tools, earn industry-recognised qualifications, and receive personalised recruitment support to help secure your first digital transformation role.

The outcome is clear: complete the programme, follow the process, and land a job – or we'll refund your investment.

Let's get started.

## What Do We Provide?

This programme equips you with the tools, techniques, and knowledge to thrive within digital transformation and Agile delivery environments. Every step is designed to prepare you for modern organisations and help you secure employment.

- Workplace Case Studies
- Personalised Career Support
- Qualified Human Mentor & Tutor
- Interactive Learning Tools
- Training in AgilePM Foundation & Practitioner, BCS Business Analysis Foundation & Practitioner, Power BI, SQL Essentials, and Scrum Essentials

## Why Choose a Career in Digital Transformation:

This job programme gives you the skills to support organisational change, contribute to Agile delivery environments, interpret business data, and help organisations improve how they operate within fast-moving digital landscapes. You'll learn how to use industry tools, work across transformation initiatives, and apply modern problem-solving techniques used within digital delivery and business change environments.

- **High Demand** – Organisations across every sector are investing heavily in digital transformation, creating strong demand for professionals who can support change, Agile delivery, and operational improvement initiatives.
- **Competitive Salaries** – Entry-level digital transformation and change-focused roles typically start between £35K – £50K, with experienced professionals progressing into senior transformation and delivery leadership positions earning £85K+.
- **Diverse Career Paths** – Digital transformation skills are valuable across finance, healthcare, retail, technology, logistics, operations, consultancy, and the public sector, supporting careers in Agile delivery, business change, transformation support, operations, and digital strategy environments.
- **Global Opportunities** – Organisations worldwide rely on digital transformation, Agile methodologies, and data-driven decision-making, making these skills highly transferable across international and remote working environments.

## How You'll Learn

- **Structured Training** – Follow a step-by-step approach covering Agile delivery, business transformation, stakeholder engagement, data interpretation, and modern digital transformation techniques.
- **Hands-On Practice** – Apply concepts through real-world transformation case studies, practical exercises, and reporting-focused activities designed to reflect modern digital delivery environments.
- **Expert Guidance** – Learn from experienced tutors who provide insights beyond the curriculum and help you understand how Agile delivery, transformation initiatives, and business change operate within professional environments.
- **Career Coaching** – Receive tailored job search and interview support.

Your journey is mapped out to ensure you gain the right skills and transition into a digital transformation role.

# Your Pathway to Success

Digital transformation professionals rely on adaptability, strategic thinking, collaboration, and problem-solving to help organisations evolve and improve. This programme is designed with the same focus, giving you a structured pathway into modern transformation and Agile delivery environments.

1

## TALK TO A CAREER ADVISOR

Not sure where to start? Our advisors help you choose the programme that aligns with your career goals.

2

## COMPLETE THE TRAINING

Pass the required exams and assessments, build practical transformation skills, and gain experience working with Agile, reporting, and business change methodologies. Certification isn't just a bonus; it proves you're job-ready.

3

## WORK WITH A RECRUITMENT ADVISOR

Get help refining your CV, optimising your LinkedIn profile, and preparing for interviews. When the right opportunity comes up, you'll be ready.

4

## SECURE THE JOB

With tailored career support, you'll have everything you need to start your new role.

## Where Could This Take You?

A career in digital transformation offers long-term growth, leadership opportunities, and strong earning potential. Here's where your journey could lead:

### DIGITAL ANALYST

£35K – £50K

Support transformation initiatives by analysing business processes, improving operational workflows, interpreting business data, and contributing to Agile delivery environments within modern organisations.

### TRANSFORMATION MANAGER

£55K – £85K

Lead digital transformation initiatives, coordinate cross-functional teams, manage Agile delivery processes, and help organisations implement strategic operational and technological change.

### HEAD OF TRANSFORMATION

£90K – £130K+

Drive enterprise-wide transformation strategy, oversee large-scale digital change programmes, and lead organisational innovation initiatives across complex business environments.

# RECRUITMENT

You've built the skills, completed the projects, and earned your qualifications. Now it's time to secure the role.

That's where we come in.

# Your **Job, Guaranteed** or **Your Money Back**

We stand by our training. Follow the process, complete the programme, and secure a role, or you get your money back.

Our job guarantee includes:

- Personalised career coaching tailored to your job search.
- An optimised CV and LinkedIn profile to attract employers.
- Comprehensive interview preparation so you feel confident in every opportunity

## The Process

### Preparation

We know what hiring managers ask because we've helped thousands of candidates through this process. Our recruitment advisors offer one-to-one exam prep sessions tailored to the role and company you're interviewing for, ensuring you're fully prepared for the questions and assessments.

### CV & LinkedIn Overhaul

Your CV and LinkedIn profile are your tickets to getting noticed. Our team works with you to sharpen them so you can stand out in a competitive market.

### Mock Interviews

Confidence comes with practice. Our mock interviews allow you to refine your responses and get feedback.

### Job-Related Assessments

Some roles involve extra hurdles – tests, case studies, or technical challenges. We'll make sure you know what to expect and how to handle them.

### Job Application Support

We guide you through the process, from knowing where to apply to ensuring your application hits the mark. With us in your corner, you will make real progress toward landing your role.

We back that confidence with a **job guarantee or your money back.**

# SUCCESS STORIES

Real success stories from students who've completed the programme and launched their careers.

We could tell you, but our candidates say it best.

## Anita Mamidi

**From:** Career Break

**To:** Change Management Consultant

After taking a career break to focus on her family, Anita sought to re-enter the professional world. Recognizing the shift from traditional waterfall methodologies to Agile practices, she enrolled in ITonlinelearning's Agile and Change Management courses. These courses provided her with updated skills, including change readiness assessments and impact analyses. With ITonlinelearning's support, Anita successfully transitioned into a Change Management Consultant role.

## Priyadharsini Ganesan

**From:** Academic Researcher

**To:** Data Analyst at PwC

Priya shifted from a research background into data analytics through ITOL's Data Analyst Programme. She gained hands-on experience with tools like Excel, Power BI, and SQL, and leveraged ITOL's career services to polish her CV and prep for interviews. Her commitment paid off—Priya now works as a Data Analyst at PwC, where she thrives in a data-driven environment that challenges and excites her.

## Naseer Babar

**From:** No experience in Business Analysis

**To:** Business Analyst

Seeking greater job satisfaction and professional growth, Naseer enrolled in ITonlinelearning's programme to gain formal qualifications in business analysis and project management. The programme provided comprehensive support, including CV and LinkedIn profile enhancements, regular check-ins, and mock interview preparations. With these resources, Naseer secured multiple interview invitations and ultimately transitioned into a Business Analyst role, achieving both career fulfillment and a significant salary increase.

# DIGITAL TRANSFORMATION CURRICULUM

Our programme is a structured, transformation-focused pathway designed to prepare you for modern digital delivery, Agile, and business change environments. From Agile methodologies and stakeholder engagement to reporting, business analysis, and transformation strategy, you'll build the practical skills needed to support organisational change and drive digital improvement initiatives.

# Your Training Breakdown

We've selected industry-recognised qualifications and practical training that employers look for within digital transformation, Agile delivery, and business change environments. These courses provide the skills to support organisational improvement, contribute to transformation initiatives, interpret business data, and help deliver strategic digital change across modern organisations.

With accreditation from BCS and APMG, this programme helps you build the professional, Agile, and transformation-focused capabilities employers value when hiring for digital transformation and delivery-focused roles.

## Scrum Essentials

Gain an understanding of Agile working environments and Scrum-based project delivery. You'll explore sprint planning, collaboration, stakeholder communication, and iterative workflows used within modern transformation and digital delivery teams.

## AgilePM Foundation

Develop a strong understanding of Agile principles, frameworks, and modern project delivery environments. This course introduces the core concepts behind Agile methodologies and explains how collaboration, adaptability, and continuous improvement support successful digital transformation initiatives.

## AgilePM Practitioner

Build on your Agile knowledge by applying Agile principles within real-world transformation and delivery environments. You'll explore Agile leadership, stakeholder engagement, delivery planning, and practical approaches to managing organisational change within modern digital teams.

## Business Analysis Foundation

Learn how to identify business challenges, evaluate solutions, and support organisational change. This certification equips you with the critical thinking, communication, and problem-solving skills needed to improve business processes and contribute to transformation initiatives.

## Business Analysis Practice Practitioner

Develop advanced business analysis techniques within real-world transformation and delivery environments. You'll strengthen your strategic thinking, stakeholder engagement, business activity modelling, and analytical decision-making skills while learning how to support organisational improvement initiatives.

This qualification helps you apply business analysis methods within Agile teams, digital transformation programmes, and business change environments, preparing you to contribute effectively to modern transformation and delivery-focused roles.

## SQL Essentials

Build practical data analysis skills using SQL, one of the most widely used languages for working with business data. You'll learn how to query, filter, and interpret data to support reporting, operational insights, and evidence-based decision-making.

## Power BI

As the final stage of your training, Power BI brings together the reporting, analytical, and business intelligence skills developed throughout the programme. You'll learn how to transform complex business data into professional dashboards and visual reports that support strategic decision-making and operational visibility.

# YOUR SUPPORT TEAM

Success doesn't happen in isolation.

Throughout the programme, you'll have access to expert tutors, interactive learning and reporting tools, and a support network designed to keep you on track.

# Your **Support** Team

## The Learning Phase:

### **One-to-One Tutor Support**

Your tutor is just a message away. Whether you need to arrange a one-to-one call, get additional study materials, or ask questions about your course, they're there to help. And with real industry experience in digital transformation, Agile delivery, and business change, they can provide insights beyond the curriculum.

### **Guidance From Certified Experts**

Your success is backed by the expertise of experienced digital transformation and Agile professionals who have worked across industries. They don't just teach the material – they guide you through real-world applications, ensuring you're job-ready.

### **Personalised Feedback**

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

### **Resource Library & Peer Network**

You'll also join an online community of fellow students, giving you a space to connect, ask questions, and engage with people on the same journey.

Why wait?
